

PM303

Transmove Multifunctional Mineral Based Transmission Fluid

A mineral based automatic transmission and power steering fluid for use in a wide range of makes and models where Dexron® or Mercon performance is required

Product Information

PM303 Transmove Multifunctional Transmission Fluid is manufactured to the latest generation Dexron® III automatic transmission fluid performance. It is also formulated for use in trucks, buses, and heavy-duty machinery that require a Dexron® fluid. The fluid is also recommended for many transmissions that meet General Motors and Ford specifications. The product supersedes all previous Dexron® IIE, Dexron® IID and Type-A suffix transmission fluids.

PM303 Transmove Multifunctional Transmission Fluid is also suitable for many earlier Japanese vehicles that require Dexron® type fluids, such as Toyota (most models before 2002), Mazda (up to 2002), Nissan (before 2004), and Holden (all models up to 2006).

PM303 Transmove Multifunctional Transmission Fluid may also be used in power steering systems for a significant number of cars, light commercials, and tractors. It is also suitable for many hydraulic systems that require ISO 22 or 32 hydraulic fluid.

PM Lubrication's XPR (Xtra Protection Reserve) delivers superior performance in both older and late-model vehicles. It provides exceptional wear resistance, high-temperature protection against oxidation, maintains cleanliness, and improves

Typical Properties

Viscosity	
Viscosity @ 40°C	31.2 cSt
Viscosity @ 100°C	7.2 cSt
Pour Point °C	-44 °C
Flash Point COC °C	200 °C
Viscosity Index	206
Colour	Red
Density @ 15° C kg/L	0.849

Meets and or Exceeds Service Classifications

Allison C-4
Ford Mercon IV
Ford M2C-138CJ
General Motors Type A Suffix A
ATF Dexron®III H IID & II
Caterpillar TO-2
Dennison
BTR Engineering 85LE & 95LE
Sunstrand

Do **NOT** use **PM303 Transmove Multifunctional Transmission Fluid** where Dexron® VI, Mercon V, Mercon SP or LV is required

Benefits

- Reduces Friction
- Improves Power
- Fuel Conservation
- Lower Wear Rates
- Prolonged Service Life
- Exceptional Cleanliness
- Long Drain

PM303 Transmove Multifunctional

For Superior Performance

Why PM Lubrication?

- ❖ Premium Quality
- ❖ XPR Protection Reserve
- ❖ Cost Effective Lubrication
- ❖ On-Site Monitoring will maximise equipment life
- ❖ Knife Edge Filtration
- ❖ Our Predictive & Preventative Maintenance Programme is **GUARANTEED** to save 15% of your total operating costs

Available in 200L, 20L, 5L, 4 x 5L Containers

Issued January 2026
